LETTER OF DEFICIENCY
WD WWEB/R 04-02

Donald I Darling
Darling Septic Service
84 Sand Hill Road
Rumney NH 03266

**Subject: Darling Septic Service Septage Hauler Permit
Transporter Permit No. 494**

Dear Mr. Darling:

This Letter of Deficiency is in response to deficiencies discovered involving your septage hauling business. On April 29 2004, the New Hampshire Department of Environmental Services (DES) conducted septage vehicle inspections at the Plymouth, NH waste water treatment facility. During the inspection, it was revealed that you no longer have permission to dispose of septage at this facility.

As a result of this inspection, the DES has determined that the following violation of the New Hampshire Code of Administrative Rules, Env-Ws 1600, Septage Management exist:

- 1 Env-Ws 1604.01(a) requires that persons transporting septage on public roads to first obtain a septage hauler permit. Septage hauler permit, Transporter Permit No. 494, authorizes you to dispose of septage only at the Town of Plymouth WWTF located at 227 Old North Main St. As such, you are in violation of septage hauler permit, Transporter Permit No. 494.

DES believes the cited deficiency can be corrected and requests that Darling Septic Service either voluntarily surrender to DES septage hauler permit, Transporter Permit No. 494, and DES permit plate NHS-494, or submit an updated Septage Hauler Application form (attached) within 30 days of receipt of this letter that supplies the required information per Env-Ws 1605.01(c). In the event compliance is not achieved within this 30 day period, DES may initiate formal actions against Darling Septic Service., including suspension of the septage hauler permit, issuing an order requiring the deficiency to be corrected, initiating an administrative fine proceeding and/or referring the matter to the NH Department of Justice for imposition of civil and/or criminal penalties.

A written report as requested above should be addressed as follows:
